## Hybrid Search for Retrieval Augmented Generation (RAG)

By combining the best of both (keywords & vectors), using a hybrid search approach becomes "smarter" and can find more accurate and contextually relevant results for the LLM to process Q: Can I park my vehicle in the office and claim for the fee?

**Ans:** Based on the retrieved documents, the company does not provide a specific policy regarding parking fee reimbursement. However, the company does have a policy for parking at the office premises.

According to the Parking Policy for XXX location, the company offers a limited number of parking spaces in .....

For other transportation-related expenses, the Global Travel Policy mentions that car parking costs due to business reasons are reimbursable. However, this seems to be in the context of business travel, not daily
